baraklawolu@gmail.com

36, Adetayo street, Ijesha Lagos.

SUMMARY

"Motivated Computer Science undergraduate with foundational skills in HTML, CSS, Python, and Git. Currently learning GitHub best practices and API integration by building a weather app. Passionate about real-world problem solving and eager to grow in a collaborative development team."

EDUCATION

BSc Computer Science (In View)
National Open University of Nigeria | 2021 – Present
CGPA: 4.33 / 5.0

A-Level Certificate (Science Track)
University of Lagos | Completed

TECHNICAL SKILLS:

- Languages: HTML, CSS, Python, C (basic)

- Tools: Git, VS Code

- Currently Learning: GitHub, APIs, React

- Soft Skills: Problem-solving, Teamwork, Fast Learner

PROJECTS

- Building a responsive weather app using HTML, CSS, and JavaScript while learning to fetch and display real-time data using APIs. Focused on improving API handling and responsive UI design.

- Interactive landing pages using HTML/CCS/JS

EXPERIENCE AND LEARNING

She Codes (2025) – Participant

- Built foundational programming skills through real-world challenges.
- Collaborated in team workshops to develop practical, small-scale web projects.
- Enhanced my problem-solving abilities by working on coding tasks and receiving feedback from mentors.

HOBBIES AND INTERESTS:

- Going to the gym

- Reading personal development books

- Exploring tech tutorials and building simple apps

SOFT SKILLS(EXPANDED)

- Time Management: Managed coursework and personal projects to ensure timely delivery of assignments and app development.

- Adaptability: Quickly picked up new tools and technologies while working on personal projects.
